SH 317 Pavement Rehabilitation Project Appreciation Letter

Date: 12/2/2013
To: Kurt Meeks, Shell P&T, Construction Supervisor
From: Jeremy Lucero, Region 3 Materials
Subject: Appreciation of Construction for SH 317

Dear Mr. Meeks,

I would like to thank Shell, SGM, Connell Resources, NWCC, Stantec, EEC and the other consultants involved in the planning and construction of the Rehabilitation of SH 317. All stages of this project from the planning to the final walkthrough have been a success.

All of the contractors and consultants have been a joy to work with. Doug Bradfield and Chuck Locke with CDC completed a nice set of plans and specifications. Connell Resources demonstrated why they have a reputation as a very good contractor in the area. This was all only accomplished by the great management and oversight of Jeff Simonson with SGM.

This project also shows the benefit of having the ability to hand-select the contractors and consultants. It is not very often that all parties involved benefit, and work so well together. It is thanks to your involvement and constant communication that this project was such a success.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jeremy Lucero".

Jeremy Lucero, PE
Project Engineer
